File Types

Print Files

EPS Encapsulated Post Script

Like a PDF, and EPS can be edited with any vector graphics program. Although it's becoming outdated, some print shops with older software will still request these files so they're good to have on hand.

PDF Portable Document Format

Another editable vector-based file format. Its universal file format makes it extremely versatile. It's typically used for printing and easily sharing documents.

Web Files

JPG Joint Photographic Experts Group

A popular image format that is commonly used for photographs and web graphics. Its lossy compression allows for smaller file sizes than PNG, but does not support transparent backgrounds.

PNG Portable Graphics Network

Another image file format that is great for web graphics and digital displays. Supporting transparent backgrounds is a key advantage over JPEG, but file sizes are typically larger.

SVG Scalable Vector Graphic

SVGs are great for websites or apps to keep logos and icons sharp and are infinitely scalable without pixelation.

Color Types

Color Spaces

CMYK

Print (Cyan, Magenta, Yellow, Black)

CMYK stand for Cyan, Magenta, Yellow, and Black. These are the four basic colors used for printing. CMYK files are for any project that will be physically printed such as business cards or brochures. They are not for screen use.

PANTONE

Spot Color

Pantone is a standardize system for color. Unlike CMYK, a Pantone or spot color is a single color created from a precise mixture of inks. Their color accuracy is superior to CMYK, but can become costly using more than three colors.

RGB

Digital (Red, Green, Blue)

The color space for digital displays. These files are used for the digital purposes such as web graphics or photographs. Printing RGB file can result in blurry images with inaccurate colors. Use CMYK or Pantone files for printing purposes.

CONTACTS

We hope you find these guidelines helpful! We at Golden Soul Studios are here as your brand partner to support you on this exciting journey for all your design needs. Please do not hesitate to reach out!
