

Home *for the* Holidays

Late one summer night, Sequoia was abandoned at The Animal Haven, left behind in a box alongside other neglected cats. She managed to escape, only to be found hiding under wooden pallets nearby, scared and alone. Sadly, one of her fellow cats who also had broken free of the box was found lifeless on the nearby road.

Thanks to donors like you, Sequoia is comfortable, happy, and secure these days, living with her new family, Victoria and McHugh, in New Haven CT.

Devina arrived at The Animal Haven as a malnourished puppy, not even a year old. She had been left tied up outside, day and night, enduring neglect. Thankfully, a compassionate Good Samaritan rescued her and brought her to safety, giving Devina her first real chance at a loving life.

Thanks to supporters like you, Devina now lives in Newington CT with her new parents, Jeanna and Tim, and her new human brother and sister, Sean and Kathryn. She and her new canine siblings, Lucy and Bailey, are all enjoying Devina's arrival.

Every day, countless cats and dogs desperately need a helping hand—and with your support, we're here to provide it. Your donation allows us to rescue, nurture, and place animals like Sequoia and Devina into safe, loving homes. **Because of you**, The Animal Haven can continue saving lives and bringing these deserving pets the caring families they've never known.

Please make your gift to support The Animal Haven, a no-kill refuge for dogs and cats since 1948. **With your help**, we take in homeless, abandoned and surrendered pets, ensure they are healthy, spay or neuter them, and vaccinate them against diseases. Then we work to find them loving, permanent homes. If they aren't adopted, we keep them safe and loved.

Your donation, no matter the amount, enables The Animal Haven to do this work. Every gift makes a difference and is much appreciated.

Together, we will continue saving cats and dogs and finding them the happy, beautiful lives that they all deserve.
Please make a donation today.

Thank you, and Happy Holidays!
